

OUTSTANDING CUTTING CAPABILITY DUE  
TO THE ULTRASONIC VIBRATION.

# COMPOUND NOZZLE ULTRASONIC SLICER

Sharply and smoothly slices dough extruded from Cornucopia KN551 compound nozzle with microscopic vibration (amplitude: 90-100  $\mu\text{m}$ ). Ultrasonic cutter slices the dough horizontally before the dough touches the belt; so the sliced dough shape remains nice and clean even in a complex shape as well as round or square.

- *Cleanly slices even complicated shaped dough or one with solid particles without deformation.*
- *Comes in two cutting modes: “continuous cutting” for higher production speed and “intermittent cutting” with adjustable cutting speed.*
- *Production Capacity is 100 cuts/min*

PRODUCTION CAPACITY (MAX.)

CONTINUOUS CUTTING: 100 cuts/min.

INTERMITTENT CUTTING: 60 cuts/min.

**100cuts/min Max!**

**Slices complicated shaped product cleanly**

**Cuts dough with solid particles sharply**
